

Customising Window Captions

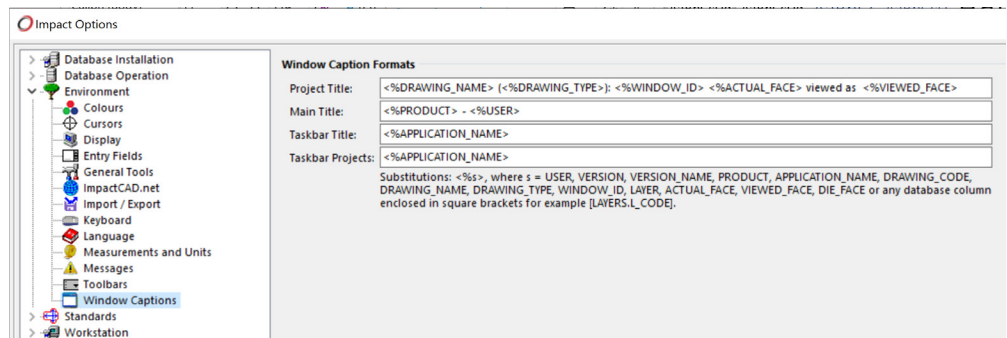

Did you know that you can edit your **Window Captions** to permanently display useful data, such as Impact Version, Drawing Code or Customer Name?

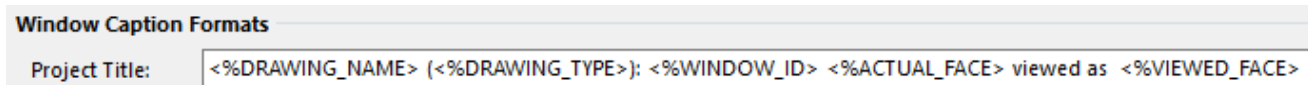

1. The default **Window Captions** displayed when a project is open, are as follows:

2. If you go to **Options>Environment>Environment>Window Captions** (subject to user-privileges)

3. You can edit the **Project Title...**

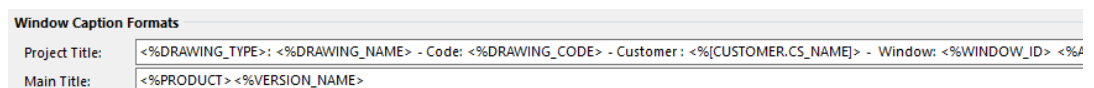

...as follows: <%DRAWING_TYPE>: <%DRAWING_NAME> - Code: <%DRAWING_CODE> - Customer : < %[CUSTOMER.CS_NAME]> - Window: <%WINDOW_ID> <%ACTUAL_FACE> viewed as <%VIEWED_FACE>

4. You can also edit the **Main Title...**

...as follows: <%PRODUCT><%VERSION_NAME>

5. This will result in...

6. Which forces Impact to display the following...

7. You can now see at-a-glance, the **Impact Version Number**, plus the **Project Code** and **Assigned Customer**, without checking the **Database** menu or **Database** tab of the **Impact Explorer**.

Note: There are also many more items you can make use of, as below:

Substitutions: <%s>, where s = USER, VERSION, VERSION_NAME, PRODUCT, APPLICATION_NAME, DRAWING_CODE, DRAWING_NAME, DRAWING_TYPE, WINDOW_ID, LAYER, ACTUAL_FACE, VIEWED_FACE, DIE_FACE or any database column enclosed in square brackets for example [LAYERS.L_CODE].
